

CARTAGENA BY SEGWAY.- 2 hour tour.

SEGWAY TOUR.- FULL TOUR DESCRIPTION

Carthaginians, Romans, Byzantines, Moors, Christians...
Starting from the pier your coordinators will give a good explanation and the practise needed to get to know the SEGWAY.
In 5-10 minutes you will learn it... then you will no longer want to get off the Segway

After, and on the top of your segway, you will be accompanied by a guide & monitor for a complete route including historical, monumental and commercial pathways.

The guides will provide you with "whispers" to hear their interesting explanation of Cartagena while you are "floating" over the city with this incredible vehicle.

Accompany us to get to know some of this epic history. Find out why Cartagena was a crossroad of cultures and one of the most important cities in the ancient ages, by visiting the exciting centres and museums that will give you and entertaining insight through its nearly 3.000 years of history.

Rome being the prevailing empire from the 3rd century BC on in this area, you will find varied remains of roman colonization, such as the magnificent remains of the Roman theatre, discovered by sheer chance only 30 years ago and in constant restoration with the process of amplifying and bettering.

After the extraordinary experience your coordinator will accompany you back to the pier.

Several shifts of 2 hours each depending on the mooring time of your cruise. Please consult timetables.
